

IP Door Phone IPDP Modular

- **Voice, video, keypad access control via SIP**
- **Web server for remote control and configuration**
- **SIP connection P2P or IP PBX**
- **Modularity**

The VoIP Door phone is a complete door entry solution based on IP communication.

The connection via SIP P2P protocol to different IP systems or LAN makes it very attractive for all company sizes.

The support of video as well as audio via SIP gives many opportunities of practical use - in private sector and also for security purposes.

Programming, maintenance and firmware upgrade is done through included web server. The unit is reachable from any place around the world easily.
